

We believe we should mention that our stock includes the

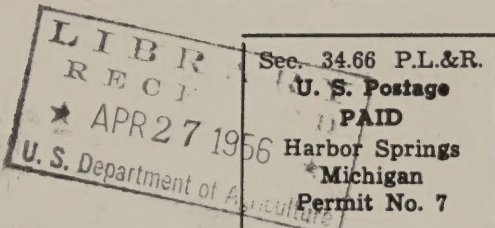

Heaviest Colorado Blue Spruce

seedlings we have ever shipped, both in 5 to 10 in. and 3 to 5 in. grades.

The same is true of Black Hills Spruce Transplants

In two weeks of digging, much of our seedling and part of our transplant stock has been shipped.

That permits a re-estimate of stock more accurate, as to some trees, than our fall inventory.

Items now available are listed oversheet.

Included are a few items now in stock we had thought sold out based on our fall inventory.
